Kami-no-Chikara

**Large-grain rice
produced by the natural
power of the gods**

annual
production volume:

50_{kg}

The Japanese people, blessed with four seasons and rich nature, have long lived feeling the existence of the gods in nature.

We supply you with this large-grain rice from the god that is nature, grown without the use of chemical or organic fertilizers.

Please enjoy the exquisite taste, flavor and sweetness of this naturally cultivated rice.

Ama-no-Hana

**Natural sweetness and
gorgeous flavor**

We have produced naturally cultivated rice with our original seeds for 30 years. Grown each year in the same fertile soil, its genes have been passed down from generation to generation, evolving into rice with a delicate aroma and flavor.

This rice, with its true natural flavor perfected over time, is ideal as a special gift or for celebrations.

Hi-no-Urara

**Nothing added
but sunlight.**

Basking in the lovely sunlight of Kyushu, this healthy, naturally cultivated rice is grown using only water and soil.

This light, small-grain rice is good for allergy sufferers and those worried about their health.

It can be steamed of course, but we also recommend trying Hi-no-Urara as rice porridge or risotto.
